Commissioner Jane Henney
Food & Drug Administration
Docket No. OOP-121 ICPI
Dockets Management Branch
5630 Fishers Lane
Room 1061 (HFA-305)
Rockville, MD 20852

Dear Commissioner Henney,

I urge you to keep genetically engineered food ingredients or crops off the market and out of the food supply unless:

1. Independent safety testing demonstrates genetically engineered crops have no harmful effect on human health or the environment.
2. Genetically engineered crops are labeled to ensure the consumer's right to know, and
3. The corporations that manufacture these crops are held liable for any harm.

I am deeply concerned about profits driving how the latest in biotechnology gets implemented. The effects of; releasing unknown organisms into the environment, eating food that has been genetically altered, and eating livestock that has been consuming such ingredients, all in the name of profits, should be halted. As a nation we should begin to discuss the implications, slowing down the market until more is known about what we are doing.

Thank you,

Josh Salans
